

# Detection of runaway electrons at the COMPASS tokamak

..

The image shows a presentation slide with a white background and a blue header. The slide content is framed by a grey border, suggesting it's a screenshot of a browser window. At the top left of the frame, there's a navigation bar with a back arrow, a forward arrow, and a page indicator '(1 of 13)'. At the top right, there are standard window control icons (minimize, maximize, close). The main content area features the 'Jinst' logo on the left, which consists of a green 'J' followed by 'inst' in a black serif font. To the right of the logo, the text 'PUBLISHED BY IOP PUBLISHING FOR SISSA MEDIALAB' is centered. Below this, the article's submission history is listed: 'RECEIVED: December 1, 2021', 'REVISED: February 1, 2022', 'ACCEPTED: February 2, 2022', and 'PUBLISHED: February 23, 2022'. The title 'Detection of runaway electrons at the COMPASS tokamak using a Timepix3-based semiconductor detector' is prominently displayed in bold black text. A horizontal line separates the title from the authors' names: 'S. Kulkov,<sup>a,\*</sup> M. Marcisovsky,<sup>a</sup> P. Svihra,<sup>a</sup> M. Tunkl,<sup>a</sup> M. van Beuzekom,<sup>b</sup> J. Caloud,<sup>a,c</sup>'. On the right side of the slide, the year '2022' is printed vertically in a large, light grey font.
