

## FIRST ANNOUNCEMENT

# 6<sup>th</sup> International Workshop & Summer School on Plasma Physics

at Black Sea

30 June - 6 July 2014  
Kiten, Bulgaria

## INVITATION

You are cordially invited to participate in the Sixth International Workshop & Summer School on Plasma Physics at Black Sea from Monday, 30<sup>th</sup> June to Sunday, 6<sup>th</sup> July 2014.

## GENERAL INFORMATION

**Summer School:** The school would bring together leading researchers in the field of Plasma Physics to give lecture on their specialties to advanced graduate students, postgraduate students and young scientists in the form of a one-week intensive course.

Scientists experienced in other disciplines who have recently entered the fields of plasma physics or nuclear fusion will also benefit from the school, which provides an overview of the various interconnected research domains and describes the latest developments. Graduates and teachers of science are welcome, as is anyone with an interest in the subject.

The 40-minute key lectures will be given by senior physicists in their field. Participants (PhD, Master students and young scientists) are strongly encouraged to present their own work during the afternoon sessions as 20-minute oral presentations or as posters.

**Workshop:** We are pleased to offer also several workshops:

- 5<sup>th</sup> edition of the Workshop *Plasmas for Sustainable Environment* is co-organized together with the Institute of Plasmas and Nuclear Fusion, Lisbon, Portugal
- A special Workshop on *Remote GOLEM operation* is organized for the students and interested participants to work with the Czech TOKAMAK GOLEM.

*Attendance at the workshops sessions is open to all participants in the IWSSPP.*

## SCIENTIFIC PROGRAM

### TOPICS

- *Fusion Plasma and Materials*
- *Plasma Modeling and Fundamentals*
- *Plasma Sources, Diagnostics and Technology*

### WORKSHOPS

- *Plasmas for Sustainable Environment*
- *Remote GOLEM operation*

*The official language of the Workshop and the Summer School is English.*
